Charles Murray : The Curmudgeon's Guide to Getting Ahead: Dos and Don'ts of Right Behavior, Tough Thinking, Clear Writing, and Living a Good Life before purchasing it in order to gage whether or not it would be worth my time, and all praised The Curmudgeon's Guide to Getting Ahead: Dos and Don'ts of Right Behavior, Tough Thinking, Clear Writing, and Living a Good Life:

1 of 1 people found the following review helpful. Short, easy read. Some good advice. Intended audience: teens and

twenty-somethings By Garth M. Hess, Jr. Murray's efforts to share business and life insights with his intended audience of young men and women seem sincere. The book is going to be most useful for teens and twenty-somethings, but even older readers will find some wisdom in Murray's suggestions, if only to reinforce that which they already know. I read the book in two or three sittings, overall less than 24 hours. I wish Murray would have fleshed out his section, "On Thinking and Writing Well." I'm always interested in reinforcing good practice for my grammar and usage. Some of the explanations, or clues for usage, didn't seem to really provide sufficient substance for someone who might be questioning his or her choice of usage. Murray does however give suggestions for supplemental reference sources one should have available when one writes. 2 of 2 people found the following review helpful. This guide is what is sorely missing in adults and ... By Lee S. This guide is what is sorely missing in adults and teens today. General respect and attention to the experience of those who worked their way up the ladder. Yet, he admits his limitations and his behavior theories lack critical analysis. 1 of 1 people found the following review helpful. Murray for everybody By Odysseus at home I bought this book expecting to find exactly what it gave me during --and after-- reading it. And it gave me a lot of wisdom in a funny way and, as a bonus, in a nutshell. I'm in my fifties and I have read hundreds --in fact, many more than thousand-- books of whatever you want, so it is difficult for me to feel or experience surprise when it comes to literature. Charles Murray did a really good job in giving advice to the young people by thinking in adult ones too. Wisdom is ageless, and this is perhaps the Murray's better achievement. He has read the same books I have read (or almost) but he is capable to offer a new perspective, a fresh new reading to people like me or whoever that is tired of stereotypes and clichés. In doing so he embraces from grammar to ethics, and from leaving home to get a good wife. All oriented to teach you --tip after tip-- how and why to live a good life. Mr. Murray jump over the risk of writing a recipe, giving us instead a bunch of good and relevant advices. I don't share his religious perspective at all but --and this is not easy to say-- the book is good anyway. Highly recommended.

For those starting out in their careers and those who wish to advance more quickly; this is a delightfully fussy guide to the hidden rules of the road in the workplace and in life. As bestselling author and social historian Charles Murray explains, at senior levels of an organization there are curmudgeons everywhere, judging your every move. Yet it is their good opinion you need to win if you hope to get ahead. Among the curmudgeons' day-to-day tips for the workplace: Excise the word "like" from your spoken English; Don't suck up; Stop "reaching out"; and "sharing"; Rid yourself of piercings, tattoos, and weird hair colors; Make strong language count; His larger career advice includes: What to do if you have a bad boss; Coming to grips with the difference between being nice and being good; How to write when you don't know what to say; Being judgmental (it's good, and you don't have a choice anyway) And on the great topics of life, the curmudgeon urges us to leave home no matter what, get real jobs (not internships), put ourselves in scary situations, and watch Groundhog Day repeatedly (I'll explain). Witty, wise, and pulling no punches, The Curmudgeon's Guide to Getting Ahead is an indispensable sourcebook for living an adult life. From the Hardcover edition.

About the Author Charles Murray is the W. H. Brady Scholar at the American Enterprise Institute. He first came to national attention in 1984 with his book *Losing Ground*. His book *Coming Apart: The State of White America 1960-2010* was a New York Times bestseller and named one of the 100 Notable Books of 2012 by the New York Times Book Review. His other books include *In Pursuit*, *The Bell Curve* (with Richard J. Herrnstein), *What It Means to Be a Libertarian*, *Human Accomplishment*, *In Our Hands*, and *Real Education*. He received a bachelor's degree in history from Harvard and a doctorate in political science from the Massachusetts Institute of Technology. He lives with his wife in Burkittsville, Maryland.
