From University of Toronto Press : The Ethics Rupture: Exploring Alternatives to Formal Research-Ethics Review before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Ethics Rupture: Exploring Alternatives to Formal Research-Ethics Review:

For decades now, researchers in the social sciences and humanities have been expressing a deep dissatisfaction with

the process of research-ethics review in academia. Continuing the ongoing critique of ethics review begun in Will C. van den Hoonaard's *Walking the Tightrope* and *The Seduction of Ethics*, *The Ethics Rupture* offers both an account of the system's failings and a series of proposals on how to ensure that social research is ethical, rather than merely compliant with institutional requirements. Containing twenty-five essays written by leading experts from around the world in various disciplines, *The Ethics Rupture* is a landmark study of the problems caused by our current research-ethics system and the ways in which scholars are seeking solutions.

"*The Ethics Rupture* is a timely and interesting volume that explores, in considerable depth, the shortcomings of ethics review systems and, importantly, offers some of the solutions to these issues." (Rose Wiles, National Centre for Research Methods, University of Southampton)

About the Author Will C. van den Hoonaard is a professor emeritus in the Department of Sociology at the University of New Brunswick. Ann Hamilton holds a PhD in human communication from the University of Oklahoma.
