I have long admired the Jewish community for their ability to work together and keep everything "in house"--for they support each other in every way and continue to prosper. We Christians need to learn from that!1 of 1 people found the following review helpful. They

Great book on fabulous communityBy Diehard ianIt is written proof on the most successful community in the USA. A great collection of self made and business savvy people. Very inspiring to see how a community can be successful with shared knowledge, wisdom and burning desire to be great. In some areas the author try to put spin on genetically supremacy that is troubling, but we are how we brought up and what kind of people we live with. Overall a very good book about successful entrepreneurs and self starters.

With truly startling statistics and a wealth of anecdotes, Silbiger reveals the cultural principles that form the bedrock of Jewish success in America.
