Waldron : The Modernization of Inner Asia (Studies on Modernization of the Center of International Studies at Princeton University) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Modernization of Inner Asia (Studies on Modernization of the Center of International Studies at Princeton

University):

Inner Asia - in premodern times the little-known land of nomads and semi-nomads - has moved to the world's front page in the 20th century as the complex struggles for the future of Afghanistan, Soviet Central Asia, Tibet and other territories make clear. But because Inner Asia as a whole is divided among several states politically and among area specialists academically, broad perspectives on recent events are difficult to find. This work treats the region as a single unit, providing both an account of the region's past and an analysis of its present and its prospects in a thematic, rather than a strictly country-by-country manner.
