Griffin I saw the review in a recent USA weekly insert with the Sunday paper, then downloaded book. The book is an easy read, but not an easy do. It means "a change of attitude" and taking "baby steps" and life-changing habits. 0 of 0 people found the following review helpful. The title was miss leading for me. By Gladys June The title was miss leading for me. I expected to read more about money than her life styles. Did not get much out of the book.

The Money Flow explores our feelings about money, how most people allow money to enslave them either by craving it or fearing it, and how it's possible instead to make money a friend and ally: a partner in achieving your life goals and your goals for the world that does not control you, but aids you. "The Money Flow" is furnishing you simple, friendly and effective tools how to create and design your own life success; enjoy the process and live a life filled with quality, freedom and contentment.

As I got to know her, I discovered that those positive traits were instrumental in her journey from poverty-stricken and occasionally homeless double-immigrant to a success in business and in life. In The Money Flow, Ana shows us all how we can bring that success into our own lives. She not only shares the universal principles and specific techniques of success, but also how she put them into practice on every spiral of the career-success whirlwind that has been her life--and continues to use them every single day. Working with celebrity authors like Jack Canfield of the Chicken Soup books and Robert Kiyosaki of Rich Dad Poor Dad, I see how these famous people embody the same success methods. Ana makes them extremely accessible to ordinary mortals--read this book. --Steve Harrison co-founder www.freepublicity.com -publisher Radio TV interview Report Ana Weber recently sponsored our event "Karaoke For a Cure" and she brought a whole new dynamic to our fundraiser event for Children's Hospitals. Ana provided very useful information on relationships, finances, and spirituality to our attendees of the event. She was an asset to have as a sponsor and I look forward to having her back for our future Gala Events. When we first started the foundation 'Karaoke For a Cure' we had a simple goal to host entertaining music events to bring together for a worthy cause to fight pediatric cancer. Each year that passes, we grow so much as an organization, helping spread awareness and financially supporting research and treatment for children at key hospitals across the country. By developing a strategy from Ana Weber's book, "The Money Flow" we are implementing new ways to expand our organization, create wider exposure, and manage our finances. In non-profit 501(c)(3) organizations, it is CRUCIAL to manage money properly so you can help the cause, but also importantly keep our business solvent. With Ana's enlightening and fresh philosophy on money management, we have really been in a better place as a foundation. --Alex Bayer Director Karaoke For a Cure Foundation
