We Are Not Computers.By Prof J.Some people will find this idea arguable, but as someone who knew from the outset that multi-tasking is a myth, this was a quick and simple reminder of how to re-prioritize in order to truly be more efficient. The text includes the worksheets in an appendix that the author discusses throughout the tale.0 of 0 people found the following review helpful. Here's another book that helps with time management. Worth \$10,000.

In a compelling business fable, *The Myth of Multitasking* confronts a popular idea that has come to define our hectic, work-a-day world. This simple yet powerful book shows clearly why multitasking is, in fact, a lie that wastes time and costs money. Far from being efficient, multitasking actually damages productivity and relationships at work and at home.
