ZZThe New Alpha really stands out from other leadership and personal / interpersonal management books in a few ways. First, it takes a comprehensive approach, starting from the basics of personal management but biasing toward action, and continuing to bring you back to the fundamentals even as you drive further and further toward execution of very specific goals. Second, it doesn't just tell you what to do - it provides space for you to do the suggested tasks right there in the book itself. Third, a lot of the information is grounded in both research and real-world experience. I think this book is something people should read, then re-read, then re-read again, periodically, as they progress through their careers. Those things you need reminding of, to sustain your career and take on tough decisions while keeping yourself grounded in reality, are covered thoroughly in this book. The New Alpha also strongly encourages a positive leadership approach that significantly improves team dynamics and productivity, unlike the more adversarial traditional management methods. 4 of 4 people found the following review helpful. Enjoyable, impactful, and action-oriented. Great book. By Andrew I got my copy in the mail today and immediately dug into it. I had seen Danielle speak previously so I knew how good this book could be. However, as I read it I realized that it was even better than seeing her live. It is totally action oriented and literally guides you through a process that will make you a more effective person. I found the mental activities to be enjoyable and thought-provoking. Ultimately, for a book with so much good information, it's super readable and will be a resource I turn to in life. 3 of 3 people found the following review helpful. Excellent Tool for Self-Development By CMO Besides being an interesting read, the New Alpha is a fantastic tool for identifying your personal strengths and weaknesses, evaluating or reevaluating your priorities (not just in your career, but in life), and setting realistic, specific, achievable goals. It is also a good resource when you need that motivational kick now and then--it actually pushed me to forge ahead with a few ideas that have been lingering in the dusty corners of my brain for awhile. I highly recommend The New Alpha for current and aspiring leaders in all walks of life.

It's not just about the skills, energy and drive to excel, but also a genuine desire to cultivate the best in those they lead to move toward a greater good, a better world. This is an

engaging, inspirational read.”—Congressman Eric Swalwell
“The New Alpha is more contemporary and more innovative than any other leadership book I’ve read. I envision companies scrapping their tired, marginally effective leader development workshops and instead using The New Alpha to engage and develop their high potentials.”—Tom Kolditz, PhD, Executive Director, Ann and John Doerr Institute for New Leaders; Brigadier General, US Army (ret); and Founding Director, West Point Leadership Center
“The New Alpha is fierce! This is not one of your run-of-the-mill aspirational, feel-good, lofty books about leadership. It’s a gritty journey through personal reflection and introspection that pushes you out of your comfort zone and propels you into a space where you can transform and redefine parts of yourself to become the whole leader and change agent you want to be in every facet of your life and as far- and wide-reaching as you can imagine. If you want to be good, do good, and effect real change in today’s world, The New Alpha is a must read!”—Jamila M. Hall, Partner, Jones Day, Leadership Atlanta, Class of 2017
“Wow! You get your money’s worth with Harlan? really, more like three books combined into one. The focus on personal excellence would have been more than sufficient, but then Harlan gives this context in terms of making a difference (personal leadership), and then application for more effective team/organizational leadership. Indeed, Harlan understands that, as the airlines instruct, when something unexpected happens you have to put the oxygen mask on yourself before you can help others. If you want to make a difference in your organization, and be an exemplary leader, you have to start with becoming the best you can be.”—Barry Z. Posner, PhD, Accolti Professor of Leadership, Santa Clara University and co-author of The Leadership Challenge and Learning Leadership
“I loved every page of The New Alpha. The writing is clear and immediate, and the ideas are so applicable to the real daily issues of leading. More than a book, this program offers Do Nows, interactive activities, journal exercises, self-assessments, and mini-assignments that will make concepts come alive and help you to integrate all the valuable ideas into your real life. Halfway through the book I had already changed two habits! A great guide for being the best leader you can be in work, with family, with friends, and in life.”—Jesse Sage Noonan, EdD, Chief Academic Officer for the Youth Policy Institute
“This is as much a book about who the New Alphas are as it is a guidebook for how to embody this approach to leadership. Harlan weaves definitions, descriptions and stories together to help you understand New Alphas’ distinctions, and then helps you discover where you are in the spectrum. She also provides you with incredibly diverse, real-life, and creative strategies for developing your self-assessed areas for growth on each of The New Alpha leadership competencies. I particularly like her ideas for maintaining your circle of support and practicing gratitude, as they apply specifically to my life. Expect these and other life-altering nuggets as you read and work your way through the program.”—Andy Petranek, Coach, Entrepreneur, Founder co-CEO Whole Life Challenges
“From real-life examples, to templates and accountability trackers, The New Alpha delivers: this is not just a book but a guide to living a life of meaning and impact. Harlan’s direct and practical approach is sprinkled with humility, reflection and humor. She makes New Alpha leadership approachable and attainable for all.”—Ahna Smith, government and nonprofit executive

Danielle Harlan paints a picture of leadership grounded in impact, fulfillment and self-actualization—a breath of fresh air in the business literature. It’s rare that a book so deftly provides actionable insights while not promising superficial quick fixes. There’s no way you’ll come away from this book without being a more focused, purposeful, authentic, and self-possessed leader.”—Rob Strain, Partner at Transcend Education
