There are excellent examples throughout the book, stories of others' journeys to greatness - ones that I've never heard about, so it is refreshing to not hear the same person's journey over and over again (i.e. Steve Jobs, etc.). There are several parts of the book that is about Lewis' experience and he talks about himself in reference to a lot of matters - if that bothers you, don't let it distract you, it's just his writing style. Focus on the message he is trying to get through, because there is one.

It's often hard to define, but when we see it we know it. Not every successful person is great, but nearly every great person is successful. Their success however, is defined by them, not us. Perhaps that's one of their secrets.

I recently had the opportunity to read an advanced copy of Lewis Howes' upcoming book "The School of Greatness" in which Lewis seeks to learn what makes people great. People like Olympic gold medalist Shawn Johnson, Deckers shoes CEO Angel Martinez, and Kyle Maynard, a young man who played football in middle school, won 36 wrestling matches in high school, and climbed Mount Kilimanjaro in his 20's, despite being a congenital amputee; meaning he was born without fully developed arms and legs. The book dives into eight principles Lewis identified while talking to these people. These principles are also chapters in his book.

8 Principles of Greatness#1 Create a vision#2 Turn adversity into advantage#3 Cultivate a championship mindset#4 Develop hustle#5 Master your body#6 Practice positive habits#7 Building a winning team#8 Be of service to others

Lewis isn't just interviewing great people, he's in his own pursuit of greatness, so he's learning from them and sharing the lessons with us. In each chapter Lewis tells their stories, and then relates it to his own life. Sometimes he tells you how he's already applied these principles, other times he tells you he's still working on it. Finally, he shares specific exercises you can do today to apply the lessons he's learned.

I wasn't sure what to expect from this book. New age "feel good" books aren't really my thing, but that's not what this is. This book is full of inspiring stories and practical exercises that have honestly motivated me to push it up a notch. Lewis' story, woven throughout this excellent read, shows that we can all be great too.

Do I recommend this book? Let's just say I plan to buy copies for my two sons. Then I'm going to read it again myself.

I would like you to write another book. I can't thank you enough. I am going after my dream because of you. You deserve it. :) I admire him. Somehow, I want to give back so much. Enjoy the book everyone.

When a career-ending injury left elite athlete and professional football player Lewis Howes out of work and living on his sister's couch, he decided he needed to make a change for the better. He started by reaching out to people he admired, searching for mentors, and applying his past coaches' advice from sports to life off the field. Lewis did more than bounce back: He built a multimillion-dollar online business and is now a sought-after business coach, speaker, and podcast host.

In the New York Times bestseller *The School of Greatness*, Howes shares the essential tips and habits he gathered in interviewing "the greats" on his wildly popular podcast of the same name. In discussion with people like Olympic gold medalist Shawn Johnson and Pencils of Promise CEO Adam Braun, Howes figured out that greatness is unearthed and cultivated from within. The masters of greatness are not successful because they got lucky or are innately more talented, but because they applied specific habits and tools to embrace and overcome adversity in their lives.

A framework for personal development, *The School of Greatness* gives you the tools, knowledge, and actionable resources you need to reach your potential. Howes anchors each chapter with a specific lesson he culled from his greatness "professors" and his own experiences to teach you how to create a vision, develop hustle, and use dedication, mindfulness, joy, and love to reach goals. His lessons and practical exercises prove that anyone is capable of achieving success and that we can all strive for greatness in our everyday lives.

Whether you're a listener of his podcast or this is your first time learning of Lewis, you will be an instant fan. Lewis' approach to achieving greatness will leave you inspired and ready to take action in all areas of your life!
