John W. Kensinger : The Spread of Financial Sophistication Through Emerging Markets Worldwide: 32 (Research in Finance) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Spread of Financial Sophistication Through Emerging Markets Worldwide: 32 (Research in Finance):

The broad theme of Volume 32 of *Research in Finance* is "The Spread of Financial Sophistication Through Emerging Markets Worldwide." Contributions assess the spread of Initial Public Offerings, the use of derivatives to provide stability, corporate governance in emerging markets, and the privatization of the Russian economy. We also gain new insights into applying financial modeling in emerging markets.

About the Author JOHN W. KENSINGER is Associate Professor of Finance at North Texas University (Denton).
