Mechel Lashawn Glass : The Veteran's Money Book before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Veteran's Money Book:

2 of 2 people found the following review helpful. Excellent book that offers valuable information By Beverly Harzog I bought this book thinking that I'd pass it on to my nephew who is in the Navy. But honestly, I plan to buy another one for my personal finance library. This book takes a thorough look at the specific problems faced by vets. But there's so much great information, it can be useful to anyone who wants to improve their knowledge of personal finance. I

especially like the chapter on planning ahead and setting goals because that's so important. Overall, it's a well-written book and I highly recommend it. 2 of 2 people found the following review helpful. A must-have for military family. By Thomas Nitzsche I purchased this book for my brother serving in the Navy. Money can be a touchy subject with family, but this book helped start the conversation and both he, I and our mom are now saving for his one-year-old's college education! 2 of 3 people found the following review helpful. A must have and a must read. By Leon The book is a must have for every family. Great tips, great advice and wonderful stories. The book will be a blessing.

Most of the 2.5 million men and women who were deployed to Iraq and Afghanistan received little education in personal finance during their service. Now these veterans are making the transition to civilian life with little knowledge of how to manage their money. In *The Veteran's Money Book*, Army veteran Mechel Glass tells how she came home from war 20 years ago and took control of her financial life; and how post-9/11 veterans can, too. Veterans making the transition to civilian life will learn how: **To build a personal financial action plan that meets their individual needs.*To understand credit and insurance, avoid scams, and develop lifelong habits to stick to a budget.*Other veterans are paying down debt and developing long-term plans to save and build wealth.* Glass served her country honorably as a U.S. Army intelligence analyst in Turkey during the Persian Gulf War in the early 1990s. Now she speaks regularly with service members and veterans at military bases, VA hospitals, and elsewhere, providing them with guidance and counseling on a variety of financial matters.
