Ramon H. Myers : The Wealth of Nations in the Twentieth Century: The Policies and Institutional Determinants of Economic Development (Hoover Institution Press Publication) before purchasing it in order to

gauge whether or not it would be worth my time, and all praised *The Wealth of Nations in the Twentieth Century: The Policies and Institutional Determinants of Economic Development* (Hoover Institution Press Publication):

This collection of essays, based on a conference at the Hoover Institution, compares the governmental policies and institutional determinants of economic development for sixteen countries within the context of Western economic development and national trends in the world economy. The study also includes an essay by Amartya Sen that examines the meaning of wealth and its different measurements.

"All contributions are nothing short of excellent." *From the Back Cover* This collection of essays, based on a conference at the Hoover Institution, compares the governmental policies and institutional determinants of economic development for sixteen countries within the context of Western economic development and national trends in the world economy. The study also includes an essay by Amartya Sen that examines the meaning of wealth and its different measurements.

About the Author Ramon H. Myers is a senior fellow at the Hoover Institution. He received his PhD in economics from the University of Washington. After joining the Hoover Institution, Myers became a member of the US Wheat Studies Delegation to the People's Republic of China in Mayndash;June 1976; served as a consultant to the Food Agricultural Organization, Rome, Italy, from November 1979 to January 1980; and taught as a visiting professor of economics at National Taiwan University, Taipei, Taiwan, in 1990-91.
