Insightful Wisdom to the Art of Time Management By Jethro Singer With love in her heart and a passion for living, author and coach Ruth Klein, brings insightful wisdom to the art of time management and productivity throughout her book, 'Time Management Secrets for Working Women: getting organized to get the most out of each day.' I found Ruth's book to be a text, a tool, a manual and a guide. It's all well and good for men and women to perceive that they each have their specific objectives in a twenty-four hour day.

However, both can find a unifying thread in Klein's book. I especially liked how she shows how to make the best of each day, and then feel a sense of fulfillment and accomplishment at it's end. Using her experiences in both marketing and time management, a contagious positive energy and a keen sense of humor, Klein shares basic techniques, numerous anecdotes and exercises to help you achieve your goals. Her insights are as keen as lightning on a beautiful dawn.

By Rolf Dobelli
Many working women awake to the figurative sound of a starter pistol and race against the clock until they lie down to sleep at night. Author Ruth Klein understands the unique challenges that time management presents to working women. The demands of home, family and work always compete for their attention, and they get almost no personal time. She divides women into three "Personal Motivational Lifestyle" categories and explains that a woman will feel unbalanced and unfulfilled if her time investment is out of sync with her lifestyle. She encourages women to nurture a clear understanding of their own personalities so their time use aligns with their values and beliefs. Klein offers many useful, practical timesaving tips, strategies and techniques for the home and workplace. The book jumps from subject to subject with little regard to flow, but the advice is solid and actionable once you find it. We believe Klein can help you organize your time. Just give her a minute.
