Eric J. Barr : Valuing Pass-Through Entities (Wiley Finance) before purchasing it in order to gage whether or not it would be worth my time, and all praised Valuing Pass-Through Entities (Wiley Finance):

0 of 1 people found the following review helpful. Five StarsBy Yaakov BarrIt's a "must have" book to every BV professional.0 of 0 people found the following review helpful. A must have addition to any business valuation library.By Howard D. FeinbergA comprehensive and thorough analysis of a complex and often misunderstood topic. I highly recommend it.

The clarity and guidance valuation analysts have been thirsting for The business appraisal community regularly names

the valuation of pass-through entities as a major issue of concern. Courts, appraisers, and the IRS have long been at odds on the topic, and the contention within the appraisal community itself over methods and inputs further complicates the issue. *Valuing Pass-Through Entities* provides clarity for the analyst tasked with valuation, offering clear explanations of the different perspectives and approaches to the process. *Valuing Pass-Through Entities* cuts through the chatter to: Explain the advantages and limitations of different types of pass-through entities Analyze the different viewpoints currently dividing the appraisal community Gain a fresh perspective on landmark cases Explain how to properly utilize a court-tested model Examine detailed sensitivity analyses of different inputs under the income and market approaches The book includes illustrative examples, templates, and a useful technical supplement, plus case studies that demonstrate the real-world effects of various pass-through entity valuation methods and inputs. Detailed analyses and an easy-to-apply model simplify the process while positively affecting outcomes. The companion website provides the text of landmark court decisions, a blog featuring industry trends and tidbits, additional articles, and the insight of the author and other industry leaders. Valuation requires the successful juggling of multiple variables, many of which can have a major impact on value. Analysts need to know how to balance each factor and apply the appropriate rates and discounts, but a lack of standard practice often leaves the issue too subjective. *Valuing Pass-Through Entities* clears the air, providing real-world guidelines and tools.
