O. Ray Whittington, Patrick R. Delaney : Wiley CPA Exam Review 2012, Business Environment and Concepts (Wiley CPA Examination Review: Business Environment Concepts) before purchasing it in order to gage whether or not it would be worth my time, and all praised Wiley CPA Exam Review 2012, Business Environment and Concepts (Wiley CPA Examination Review: Business Environment Concepts):

Ehh, I guess you get what you pay for compared to BeckerBy MikeHuemThis review is more for the REG book as I did not even use this one, but same concept. If you want to pass using REG book you are going to have to read it cover to cover twice and do all MC problems thrice and simulations thrice although there is no guarantee that the simulations will help you. Get used to using the testing system! Someone

needs to provide a comprehensive program just as good as Becker for a fraction of their price...def do-able in today's technology and you would be guaranteed to profit if done correctly. Kinda pisses me off that Exam study material is so pricey. Discourages people from using them.... and prob not good for AICPA either unless they rake some profits.0 of 0 people found the following review helpful. Great dealBy Pradip VaghelaExcellent condition0 of 0 people found the following review helpful. If You Study, You will PassBy KINDIGIRLI bought this book and the test bank (all 4 parts) for my son. He studied A LOT (without the benefit of any classes) and he passed the CPA exam the first time around. This was a great investment!!
