Patrick R. Delaney, O. Ray Whittington : Wiley CPA Examination Review, Outlines and Study Guides: Volume 1 (Wiley CPA Examination Review Vol. 1: Outlines Study Guides) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wiley CPA Examination Review, Outlines and Study Guides: Volume 1 (Wiley CPA Examination Review Vol. 1: Outlines Study Guides):

4 of 5 people found the following review helpful. Not worth the time
By JoyousI bought this because my exam is coming up and I wanted a quick study guide so I'd at least have a chance to pass. The only reason I gave this two stars instead of one, is that it has a lot of well written, general test advice in the beginning of the book. It's a great read for someone who hasn't taken any exams yet. Unfortunately, the content itself is poorly written and unorganized. The FAR

content focused extensively on the codification numbers, which are not tested on the exam. The "outline" format was wordy and hard to understand. It was worse than reading a tax textbook. Keep in mind, I only attempted to read this for about an hour before returning it.. maybe once you get into it, it's more helpful. I'm going back to Becker and rescheduling my exam..
