Life is not lived all at once; it's lived in moments, days, months, years, and decades. This means that the financial plans and actions we all have to take to meet our responsibilities sensibly must be organized by years and decades. Ben Stein wrote the original guide to this subject almost a quarter century ago. Now, Ben, along with Phil DeMuth, the eminent financial planner and writer, have gotten together to update the book, incorporating the massive changes that have occurred in the economy in the past 25 years. This book tells you what and when to save, how much to save, what to save it in, when to spend, and when to say no to your present and yes to your future. Yes, You Can Get A Financial Life! is a time-traveling guidebook on how to organize the money side of your life for all of the decades of your life.

About the Author Ben Stein, a nationally renowned "Renaissance man," hosted the long-running quiz show Win Ben Stein's Money. He is a former White House speechwriter, Wall Street Journal and American Spectator columnist, trial lawyer, law school professor, scriptwriter, and novelist - and author of several self-help books on finance. He has seen the biggest (Richard Nixon) and the most famous (many Hollywood stars) ruin their lives. He has also seen how some seemingly ordinary people made something great of their lives - by doing the opposite of what he sees as ruinous acts and modes of thought. He lectures nationally on finance, politics, and how to improve one's life.
