Tim Summers : Yunnan-A Chinese Bridgehead to Asia: A Case Study of China's Political and Economic Relations with its Neighbours (Chandos Asian Studies Series) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Yunnan-A Chinese Bridgehead to Asia: A Case Study of China's

Political and Economic Relations with its Neighbours (Chandos Asian Studies Series):

The Chinese Government's five-year strategy for social and economic development to 2015 includes the aim of making the southwestern province of Yunnan a bridgehead for 'opening the country' to southeast Asia and south Asia. *Yunnan - A Chinese Bridgehead to Asia* traces the dynamic process which has led to this policy goal, a process through which Yunnan is being repositioned from a southwestern periphery of the People's Republic of China to a 'bridgehead' between China and its regional neighbours. It shows how this has been expressed in ideas and policy frameworks, involvement in regional institutions, infrastructure development, and changing trade and investment flows, from the 1980s to the present. Detailing the wider context of the changes in China's global interactions, especially in Asia, the book uses Yunnan's case to demonstrate the extent of provincial agency in global interactions in reform-era China, and provides new insights into both China's relationships with its Asian neighbours and the increasingly important economic engagement between developing countries. Offers a new perspective on Yunnan. Contains historical depth: understanding the background and developments over time means that this 'China watching' book will not date quickly. Takes a provincial view of China's international relations.

Yunnan is one of China's most strategically important regions, occupying a critical area where it serves as a bridgehead between the rest of the country and the diverse and complicated economies and polities of south and southeast Asia. Tim Summers has intimate experience of working in the region and has produced an excellent, readable and comprehensive study, locating this ethnically rich province in its historic and regional context, but then using Yunnan to illustrate the complex interdependencies of provinces in modern China and the ways in which they relate to the central government, to other provinces, and to the wider world. An important and rewarding new study., Kerry Brown, University of Sydney This is a succinct, clearly-written and well-presented discussion of how a province is able to articulate its own goals while working within a national system where many of the macro-economic policy levers like interest rates, growth targets and tax raising powers are still in the hands of the central government., Asian of Books About the Author Tim Summers writes on the politics, economy, and international relations of contemporary China. He is a Senior Consulting Fellow with Chatham House in London, teaches at the Chinese University of Hong Kong (CUHK), and advises corporates and investors on China. Tim holds a PhD in Chinese Studies from CUHK, and an MA from the University of Cambridge. He was British Consul-General in Chongqing from 2004 to 2007, when he traveled extensively in southwest China, including in Yunnan.
